To collect, preserve, study, and exhibit those objects that will serve to illustrate the part Lansing played in the development of transportation with emphasis on the automobile and its effect on this community and its people.

BRAND

The R.E. Olds Transportation Museum first opened its doors on May 18, 1981 to honor the advancements made in transportation right in Lansing, Michigan. It was fittingly named after one of Lansing's most notable automotive leaders, Ransom Eli Olds. He became well-known around the country for his contributions in creating the assembly line for automobiles, but locally, he was known for starting two companies of his own: Olds Motor Works and REO Motor Car Company. These were the building blocks for bringing the automotive industry to where it is today.

Today, the museum, along with the R.E. Olds Foundation, is committed to keeping up the progress that Olds paved the way for in Lansing. The hope is that the museum becomes a place for the community to gather and remember what came before.

STRATEGY

The R.E. Olds Transportation Museum is looking to build a space that is welcoming for all to learn and explore. The museum contains a rich history of the automotive industry in Lansing ranging from 1886 to 2003.

PHOTO USAGE

The brand mission is focused on highlighting Lansing's innovation and heritage in the automobile industry. Photos should be selected based on their ability to showcase the beauty and details of these vehicles. Consider a variety of angles when photographing the museum exhibits to capture the full appearance. Avoid using photos of poor image quality and bad lighting.

Typography is an important part of any brand, and must be used consistently to achieve brand recognition and awareness. The typeface R.E. Olds mainly utilizes is Baskerville Old Face, which should be used in all website, social media, and print applications. Other typefaces should not be used in any circumstances.

-tone

Tone of voice is how the character of your organization comes through in the words you use in all brand materials. Your tone will shape how your audience sees you and will make an everlasting impression. The meaning behind the phrase “Historic Innovation & Future Inspiration” is the center of everything and helps communicate the museum's values effectively with the community.

Brand & Audience Values

- Education
- History
- Innovation
- Reflection

When creating content, consider these questions to guide (brand's) tone:

1. Consider (brand's) values. What words would someone with those values use?

4. What can you find in common between your values and that of your audience, and then how can you use it.

TARGET AUDIENCE

When crafting messaging for any platform, including social media, brochures, and website content, it is important to keep your target audience in mind. This allows your content to better connect with your target audiences and result in effective communication. R.E. Old's main audience personas are typically donors, locals, and those who love history and/or cars. However, we are also committed to being a safe and fun environment for children and all other ages. Before creating content, always think about which of the three main audience personas you're trying to talk to, and tailor messaging accordingly.
